Qualifying connection:

You can marry in a Church of England church if you can show that one of you:

- has at any time lived in the parish for a period of at least 6 months, or
- was baptised (christened) in the parish concerned, or
- is confirmed and your confirmation was entered in the register of confirmations for a church or chapel in the parish (this will usually be the case if you were prepared for confirmation in the parish), or
- has at any time regularly gone to normal church services in the parish church for a period of at least 6 months

or

That one of your parents, at any time after you were born:

- has lived in the parish for a period of at least 6 months, or
- has regularly gone to normal church services in the parish church for a period of at least 6 months

or

That one of your parents or grandparents: was married in the parish

If you cannot demonstrate any of the above connections, you could create one, simply by attending your chosen church's usual services at least once a month for six consecutive months. If you decide to do this, leave enough time after your attendance for the banns to be read before your wedding too (– three months)
